'TREATY STONE, LIMERICK'

Lucy Fitzgibbon.

Lucy Fitzgibbon.

I created, curated and hosted an art exhibition/social event in Barcelona during my time living there.

Using my own art, recycled materials and a collection of things I found on the streets of the city, my aim was to bring people together through art, creation, music and second hand fashion.

A big motivation of mine in life and in my art is community and sustainability.

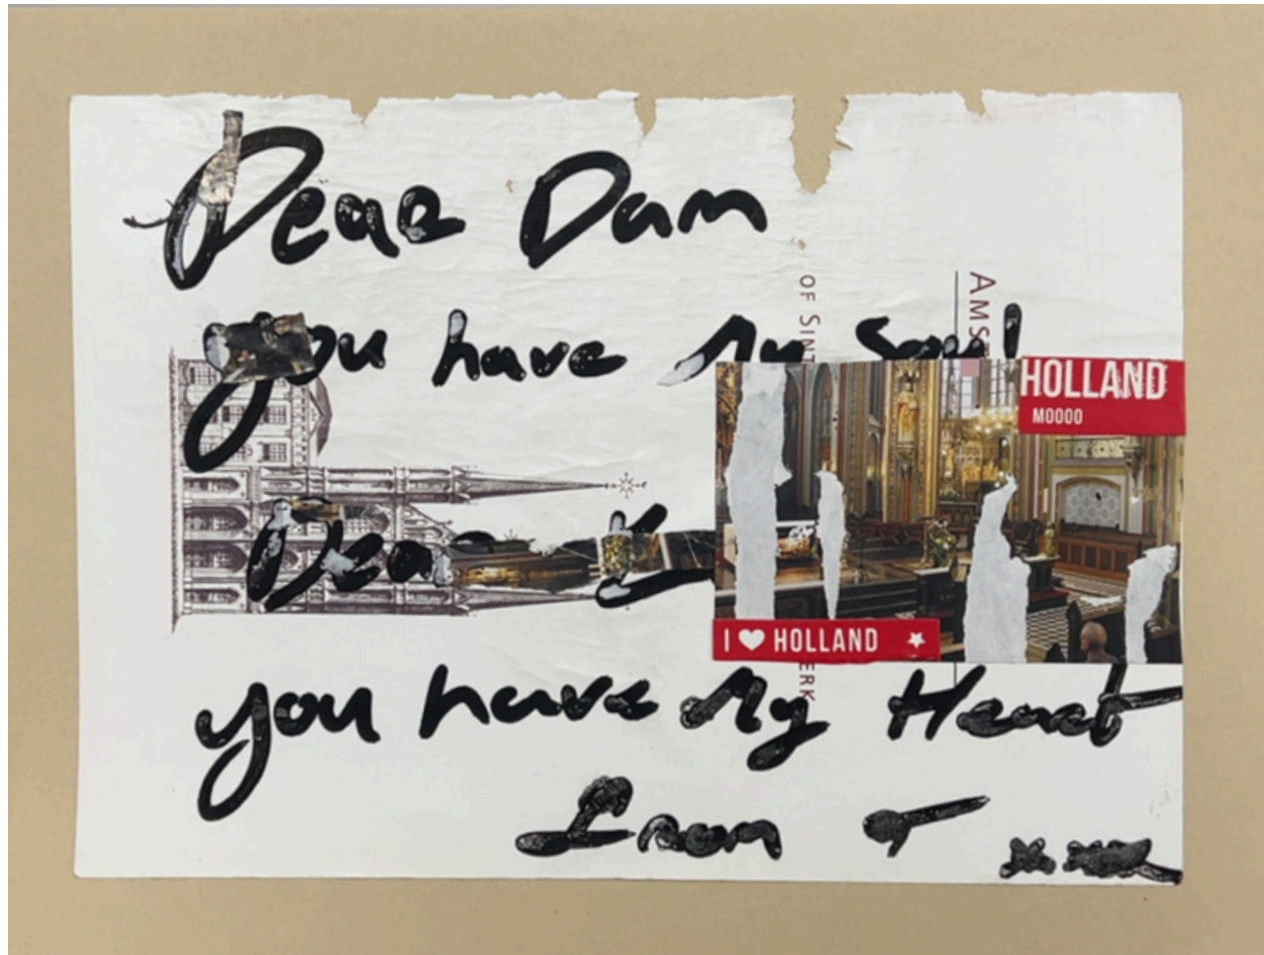

A love letter, using digital drawing on my own photography

I like to collect scraps from my travels and make collages with them when I return home as a keepsake.

Luis Fitzgibbon.

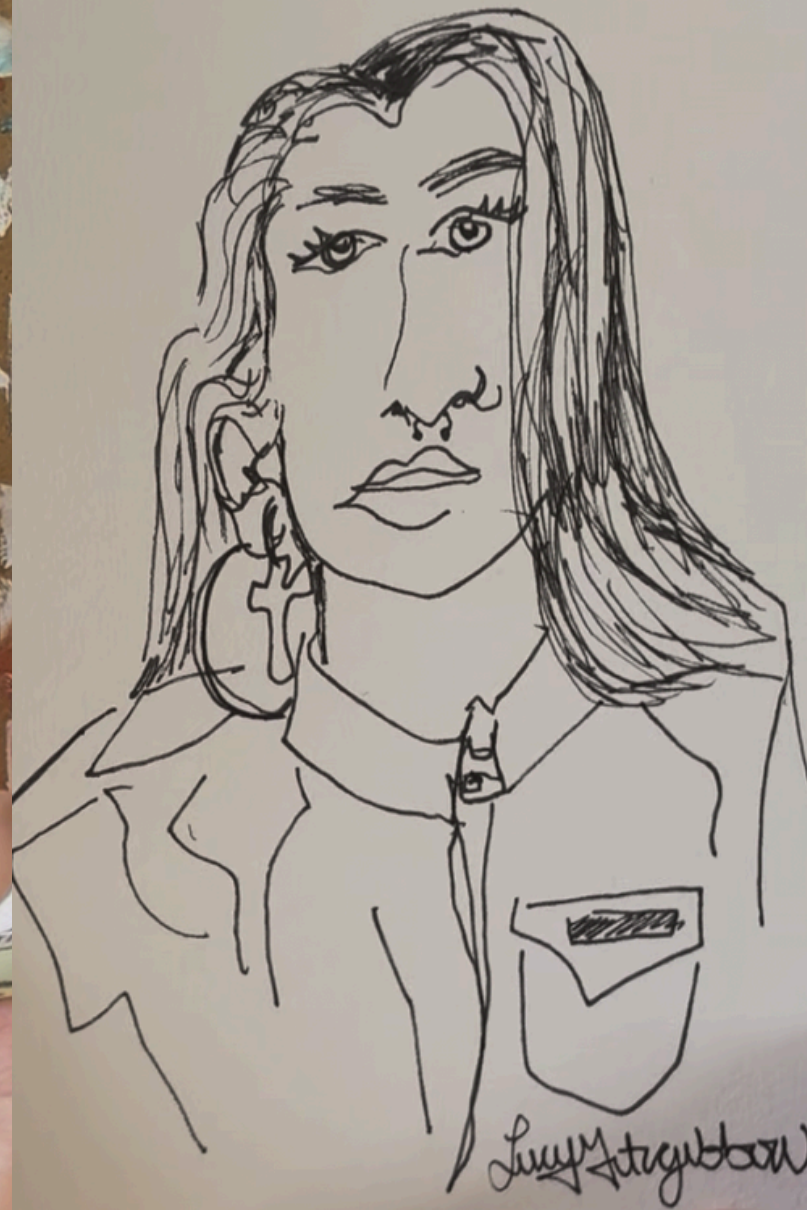

Mixed
media.
